Why Choose ChildWatch®?

ChildWatch® has a proven track record of more than a decade. Over that time our offerings have evolved with the latest technologies and the ever-changing needs of our customers.

There are many “flight-by-night” options available, but will they be there tomorrow? Will your business be left without service or support? This is a common concern with business owners and rightly so. It’s vital that you choose a business solution which won’t leave you unexpectedly hanging as you invest precious time and resources into it.

RSI has proven its longevity and reliability. Customers have successfully relied on RSI for more than 20 years allowing them to build their business with confidence knowing their software needs are met today with room to grow for tomorrow.

ChildWatch® was the first 100% Internet-delivered software service for childcare businesses. While other companies were fighting the web, RSI embraced it and has developed ChildWatch® to offer services to CACFP sponsors, childcares and the parents, mobile device support, electronic payment solutions & much more. Try our services risk-free!
