Business Management Tools

RSI provides a variety of tools to make managing your business easier. Parents appreciate the speedy drop-off & pickup using our "kiosk" mode.

You can track employee work times, child immunizations, and bill parents with different rates with just a few clicks. Print & email statements in a snap!

It's all here to make your life easier while providing professional appeal to your clients.

CACFP Claims Processing

Processing your claim has never been easier! As a sponsor your providers receive our services free of charge. Providers are able to perform tasks such as maintain their menus, enrollments, and record meal/attendance data.

As claim time arrives, simply run the claim report, pay providers, and submit the claim on paper or electronically with the state.

eServices & ePay

Today's parents demand the convenience of mobility, while still faced with the need to monitor their affairs. Worry no more!

RSI offers a variety of professional tools to help parents stay in close touch with teachers, view statements and make payments online.

Having a field trip? Parents get real-time access to events such as trips and parties, closing dates, etc. all from the convenience of their home, office, or on the go. Accept payment electronically with *ePay!*

Online Training Tools

Getting your staff trained and up & running has never been easier!

Visual tutorials providing them with step-by-step instruction for key tasks. Even for the most novice computer users, most staff are ready to use the system within only a couple hours of hands-on training.

Automated training emails are provided during the first 30 days of service to each employee. These emails provide useful tips in getting started to speed the training process.

"Thanks for all of your help - your customer service is outstanding!"

I will for sure be recommending your service to others in the field."

Continual Updates & Support

Got a question? Need to report an issue? No worries. Using our "Ask RSI" feature users can submit their questions and receive assistance from a live support technical in a timely manner.

Our technicians are highly trained to answer any question or troubleshoot nearly any program issues. We value your feedback in providing an endless stream of useful suggestions for program improvements.

RSI is continuously enhances its software to improve usefulness.

Work with Confidence

RSI uses the latest state-of-the-art firewalls, antivirus, intrusion detection, port blocking, IP tracking and 128-bit data encryption. Your data are entirely safe and even automatically backed-up for you through a rigid, automated process., both on- and off-site.

In over 10 years of providing web-based software as a service, RSI has maintained strict security policies and multi-layer protection methods to ensure our system and data are safe. RSI is PCI DSS compliant.

RSI At a Glance

RSI specializes in the development of relational database management systems and web-based applications. We have been proudly serving the daycare industry since 1997.

Our products and services have a proven record of quality, ease of use and personalization. Our clients have continued to express their appreciation for the user-friendly interfaces and simplistic operation our software provides.

Remarkable Systems®, Inc. (RSI) was founded in 1992 as a software development and consulting firm.

Our experience dates back to 1982 when the microcomputer era first began. Working with a wide range of software, hardware, and programming languages, RSI is an established company with state-of-the-art equipment and a proven track record of service and dependability.

Over the years, RSI has worked with corporations and agencies covering a multitude of types, sizes, and fields of expertise, including Marriott Corporation, Morrison's Hospitality Group, Gardner Merchant, Sodexo, The National Security Agency, and The Department of Justice.

Our goal is to create practical systems which offer current technology, an affordable price, and which are simple to learn and use. From the "computer guru" to the "computer illiterate", we have successfully worked with people of all ages and skill levels.

We believe you'll find our systems... **Nothing Less Than Remarkable!™**
